

REMARKS

The indication of the allowability of Claims 1, 2, 6-10 and 13-20 is noted with appreciation.

Applicants have addressed the formalities raised in paragraph 1 on page 2 of the Office Action.

Reconsideration of the rejection of said claims under 35 U.S.C. §112, ¶2 is respectfully requested in light of the foregoing amendments and following comments.

Applicants have addressed the antecedent basis and inconsistent terminology issues. In this connection, they have utilized the term "unit" as a synonym for the basic container 1 so as to better distinguish its features from those of the expansion element(s). Appropriate antecedent basis for that term which is used to define the assemblage of a floor wall, roof wall and one or more foldable side walls has been added to the Specification [0016].

Accordingly, early allowance of the case is now earnestly solicited.
